|---|---|
| **Capacity / Accuracy** | Mono-range (3.000 divisions):<br>15 kg - 5 g<br>30 kg - 10 g<br>Multi-range (3.000 divisions):<br>6 kg - 2 g  #  15 kg - 5 g<br>15 kg - 5 g  #  30 kg - 10 g |
| **Free choice** | CS-1100 W scale is available with DIBAL SW-1100 sales and management software, or with some of the most popular POS applications.<br>Furthermore, as this is a real PC, you can install any Windows ® application. |
| **Image and design** | Attractive and modern design, suitable for new image and shop interior design trends.<br>7" or 15" TFT buyer's side displays allow to show  presentations, pictures and/or videos which make the scale a good sales promotion tool.<br>There is also a self-service version available, without rear display. (See CS-1100 W Self Service scales) |
| **Quick and easy to use** | Touch screen. Immediate learning (it avoids the hassles of training and staff turnover) and fast and reliable sales transactions.<br><br>SW-1100 Software:<br>- Detailed articles information through direct keys (name, photo, price...). There is no need to memorize codes. Articles are searched by code or name.<br>- Unlimited number of article keys (subsequent screens).<br>- Keyboard configurable by user: PLUs, sections, vendors, QWERTY or ABC keyboard, etc ...<br>- Possibility to display the receipt or label on the screen.<br>- Easy deletion of receipt lines / Easy reopen of receipt. |
| **Total customization** | SW-1100 Software:<br>It includes an application for the design of keyboard templates (for assisted sales or self-service mode).<br>Configurable interfaces and access permissions assigned to different users.<br>- Every button can include texts, icons, photos, etc.<br>- The buttons are automatically sorted by different criteria at user's choice: code, name, top sellers...<br>- In order to speed up the installation, the scales are supplied with a collection of templates, databases and photographs of food items (butchery/cold meat, fruits/vegetables and fish/seafood). |
| **Versatility in receipts and labels** | 2" printer for receipts or labels. Cassette system for a quick change of paper roll.<br>SW-1100 Software:<br>- Unlimited and fully configurable receipt and label formats.<br>- Label formats assignment, even for each article.<br>- Standard Windows® Fonts for both receipts and labels.<br>- Receipt + label or receipt + cash voucher in scales with second printer (2" Dibal or 3" external printer). |
| **Information, management and control** | 15" touch screen TFT on the vendor's side.<br>7" or 15" TFT display on buyer's side for own promotional purposes (photo galleries, videos, presentations...) or supplier's advertising (TV spots, seasonal campaigns, etc ...).<br><br>Display angle adjustable for better viewing, both in vendor and buyer sides.<br>SW-1100 Software:<br>- Vendor's screen with programmable information for "sales support": prices by weight segments, offers, messages from central office, etc.<br>- Programming and advertising campaign statistics for buyer's TFT: the scale displays all images of a folder or just that one associated with the particular article being sold ("cross-selling"). |

- Full range of reports and graphics: global and detailed sales, margins, etc., with complete flexibility to select articles, customers, vendors, dates, periods, etc. and triple output options: on screen, in the scale printer, or in an external printer.
- Multi-prices. Prices associated to each store and each customer.
- Stock control (warehouse) global and for each store.
- Delivery notes and invoicing management.
