Barcodes

D-900 Series scales can print in both receipts and labels EAN-13, GS1 DataBar and EAN-128 barcodes. Moreover, they also allow the connection of a scanner, powered by the scale (5VDC), to read these barcodes

Fiscal mode (dep. on countries)

When this option is activated, the scale will keep a full copy of all receipts printed during the fiscal period. They can be listed and sent to PC

Stocks management in the scale

Entry of initial stock.
Register of sales, deducted from stock.
Display and print reports of stock by PLU.
Adjustment of stock after physical inventory.
Information can be sent to PC.

Communications

Interconnection and computer connection of scales based on Ethernet TCP/IP, as standard, and Wireless (Wi-Fi IEEE802.11) or Homeplug, as an option.
In Wi-Fi communications, Access Point is not needed, as the Wi-Fi internal module of scales can be configured as Access Point.
Interconnection of scales, up to 16 per section, operates on a "master + slaves" or "master + submaster + slaves" configuration.

USB Port: it allows to connect an external memory device, for copy or restore data and configurations of the scale, and dump sales data.
Fully compatible with DIBAL 500 Range scales.

Dibal Web Server

DWS: Access to the information of each scale from computers or mobile devices with web browser.

PC Software

DFS: Scales programming and sales reception.
DLD: Design of receipts and labels.
CDA: Design of advertising images.
